INTRODUCTION

This list of pre-1851 estate, parish and other large-scale maps has been compiled from catalogue records in the map catalogue. The purpose of this list is to group records by pre-1974 counties, enabling easy reference to the extent of holdings for a particular area.

The maps listed are those which depict a parish or larger area, including estates, gardens and plantations. The list is in three parts: England and Wales, Scotland and Ireland. Maps are listed alphabetically by place-name within each county. Multiple entries for a named place are listed chronologically, as are the maps of London (City and County).

Each entry contains the following information (where known):

- Title of map.
- Surveyor (also engraver if stated).
- Date (usually of survey).
- Scale.
- Source.
- Publication date for printed maps if different from date of survey.
- Shelfmark.

The dates appear in square brackets [] if not shown on the map. Approximate dates and scales are prefixed *ca*.

Entries with the shelfmark "**xxx. C.R.O.**" were previously deposited in the library's collections but are now at the appropriate County Record Office.

Entries with the shelfmark **Ashmolean** were previously part of the Sutherland collection and have now been transferred to the Sackler Library.
